

Software Engineer – JavaScript

To apply for this position, click [here!](#)

Are you a JavaScript developer who loves programming and architecting web applications? Do you value delivering highly innovative code & designs for our users and customers? Our Research & Development organization is looking for highly motivated JavaScript software engineers who will help the company advance our suite of products and enhance our market leading UI and UX.

WHAT PROBLEMS WILL YOU BE SOLVING?

Work with people whose passion for creating outstanding software matches yours. Collaborate, brainstorm and work in an interactive, dynamic and rewarding environment that will challenge your skills and help you achieve the next level of your career.

You will have the opportunity to work on a web based software suite that has not only set a new standard for call center software, but has driven innovation within the entire industry. You will also be able to participate on a highly skilled team of other UI developers who are pushing the edge of what is capable within a web browser on a daily basis.

WHAT SKILLS WILL MAKE YOU SUCCESSFUL?

- Skilled in Agile development methodologies (including unit testing and continuous integration)
- Bonus Points!
 - Experience with AngularJS
 - Experience using JIRA and Confluence
 - Experience with advanced charting/graphing JavaScript visualization libraries such as D3

WHAT IS REQUIRED FOR YOU TO APPLY?

- Bachelors' degree in Computer Science or related field
- Proficient in HTML, CSS and Object-Oriented JavaScript
- 4+ years of experience with JavaScript.

WHAT VALUES ARE IMPORTANT TO CALABRIO?

- Collaboration amongst teams
- Open communication across the company
- Ambitious
- Accountable
- Customer Success!
